User List

curl --request GET \
  --url http://localhost:8000/users/ \
  --header 'Authorization: Token 6ab20069897010a2b6e04bb4a3cd27e1a49a9292' \
  --header 'Content-Type: application/json'

Register A new User POST

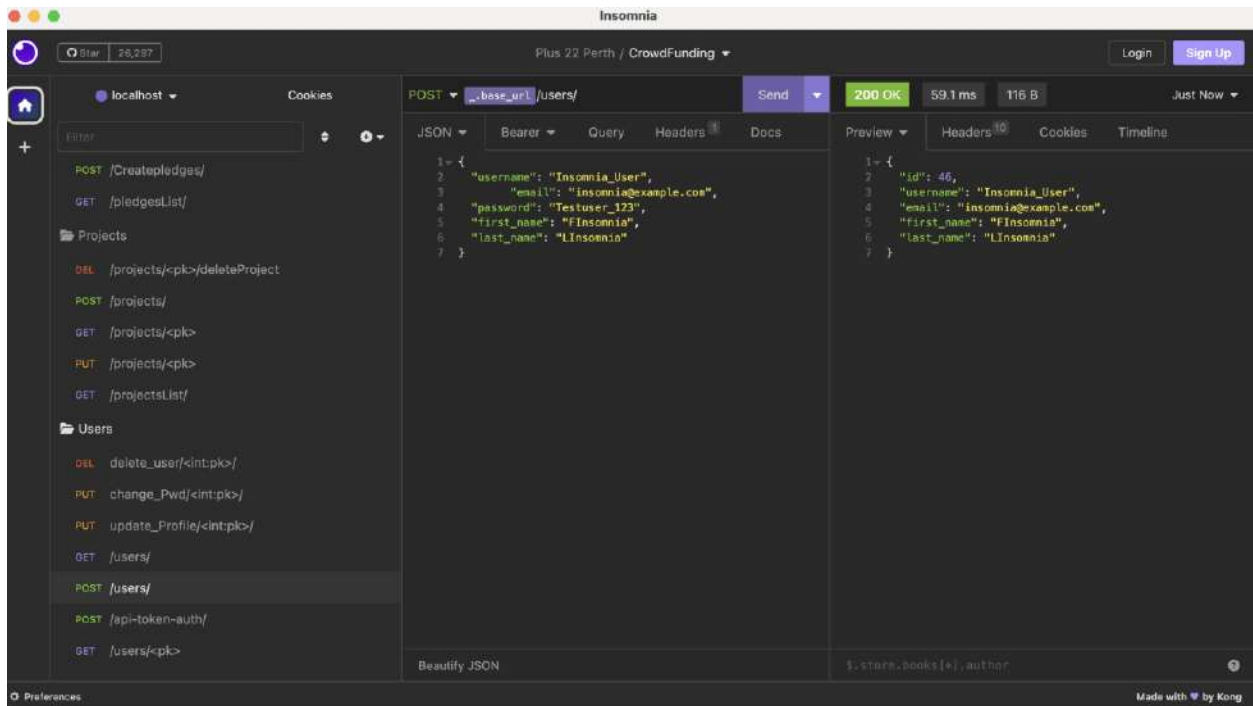

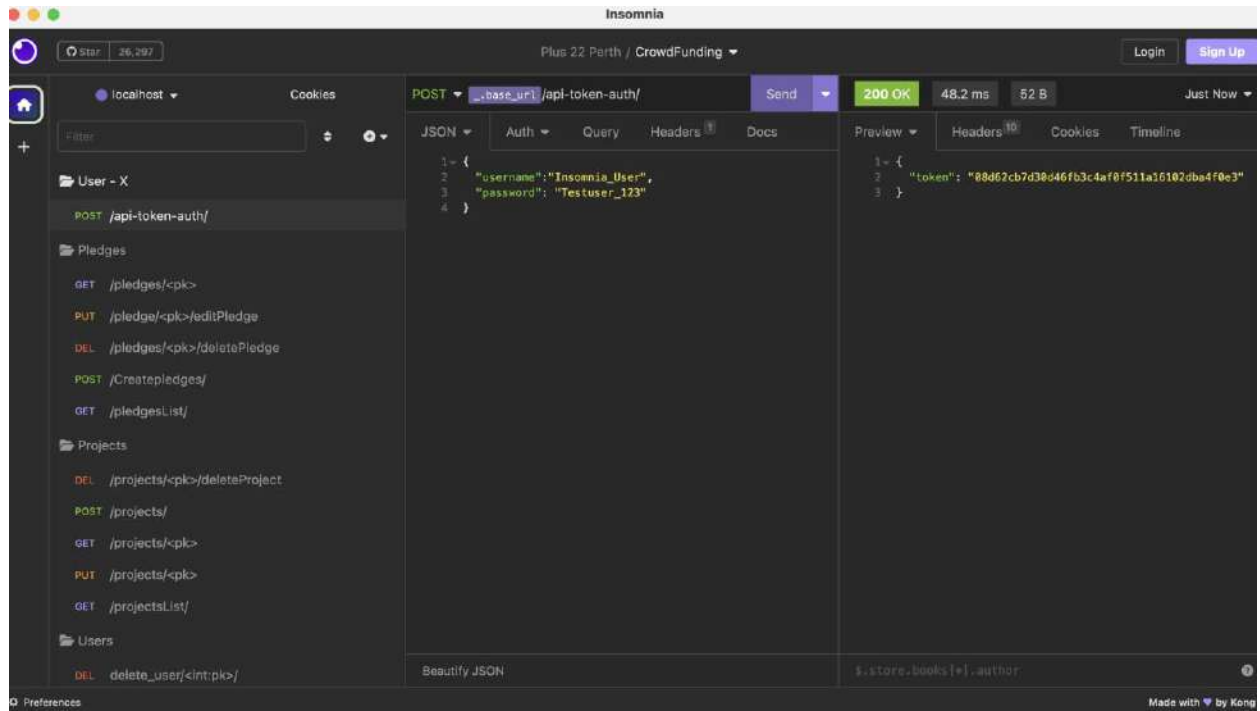

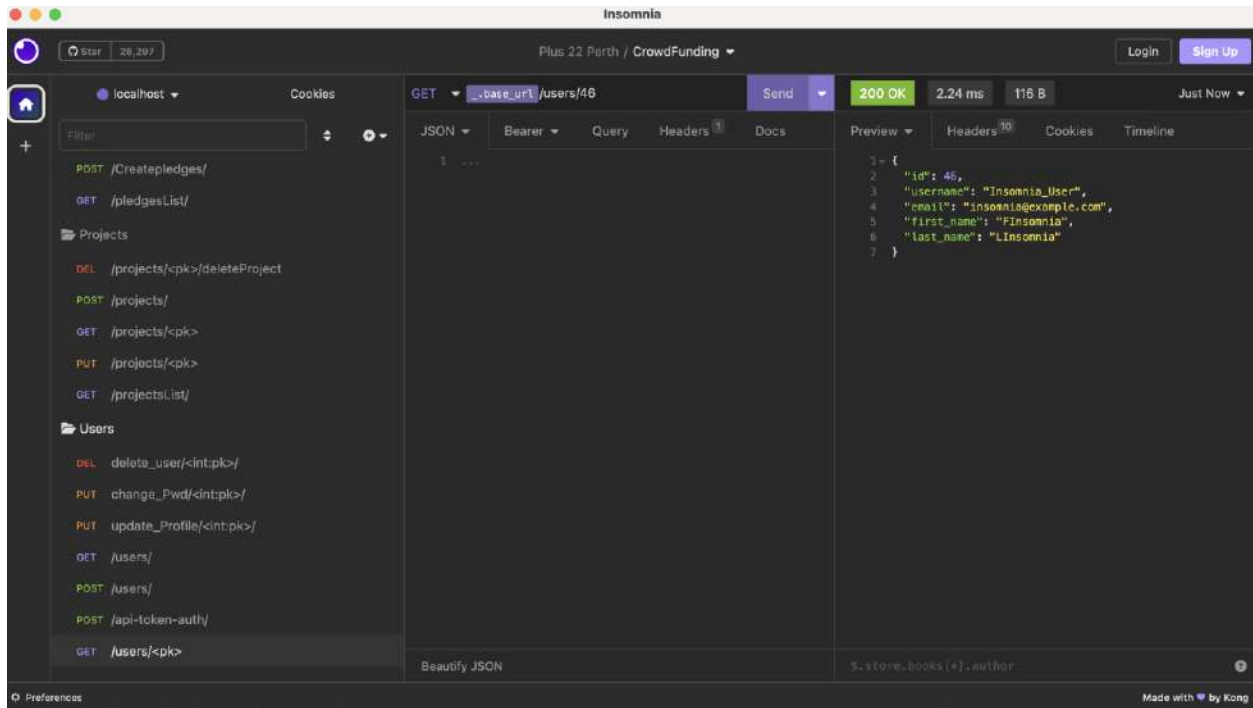

```
curl --request POST \
  --url http://localhost:8000/users/ \
  --header 'Authorization: Token 6ab20069897010a2b6e04bb4a3cd27e1a49a9292' \
  --header 'Content-Type: application/json' \
  --data '{
        "username": "Insomnia_User",
      "email": "insomnia@example.com",
        "password": "Testuser_123",
        "first_name": "FInsomnia",
        "last_name": "LInsomnia"
}'
```
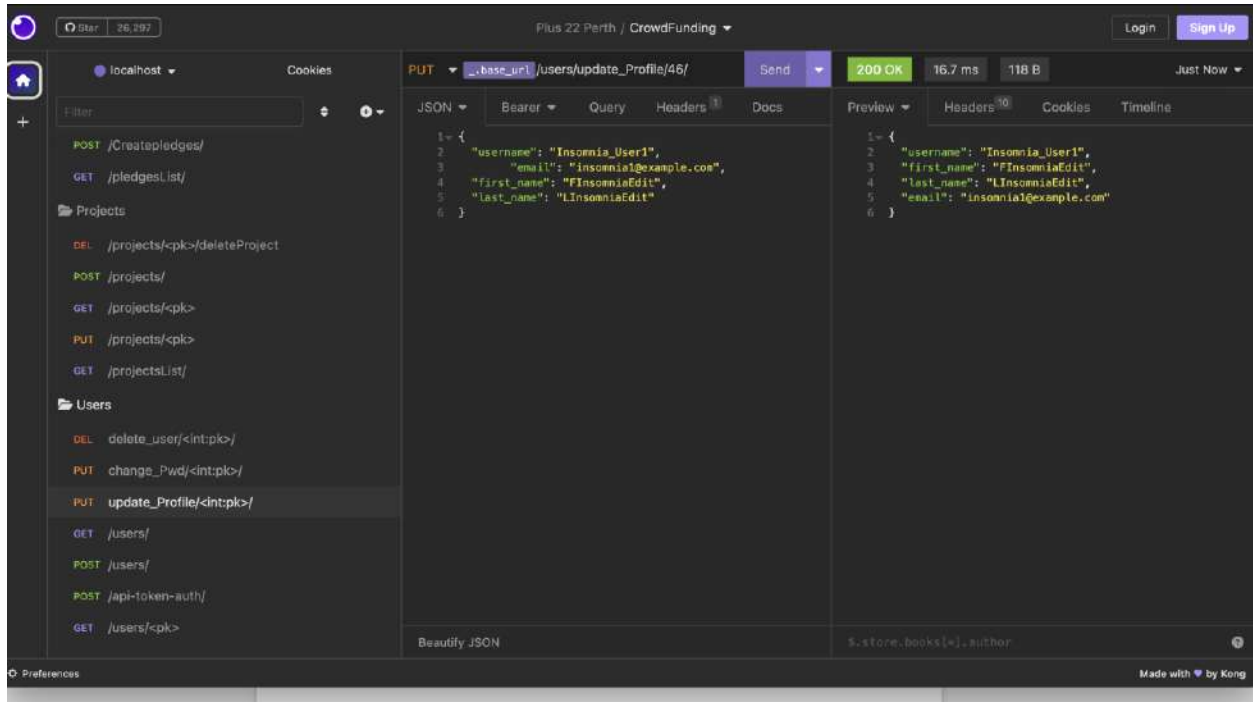

Generate Token

```
curl --request POST \
  --url http://localhost:8000/api-token-auth/ \
  --header 'Content-Type: application/json' \
  --data '{
  "username":"Insomnia_User",
  "password": "Testuser_123"
}'
```
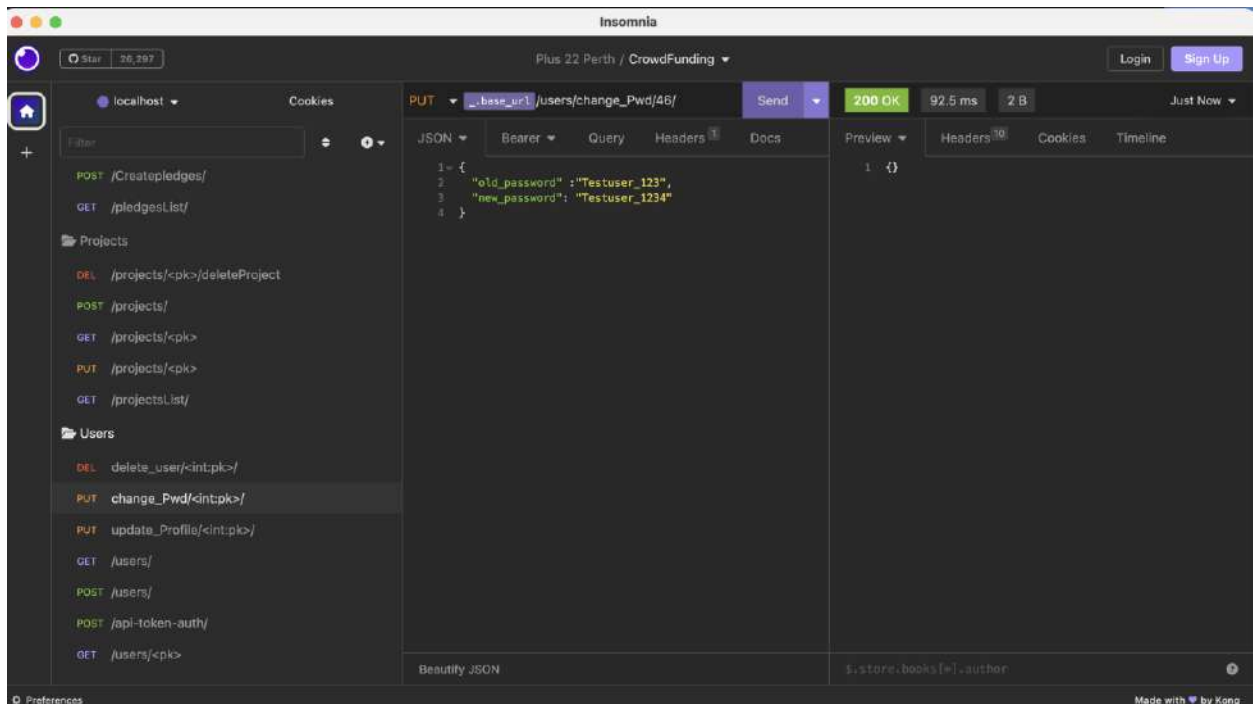

Single user – GET

```
curl --request GET \
  --url http://localhost:8000/users/46 \
  --header 'Authorization: Bearer undefined' \
  --header 'Content-Type: application/json'
```
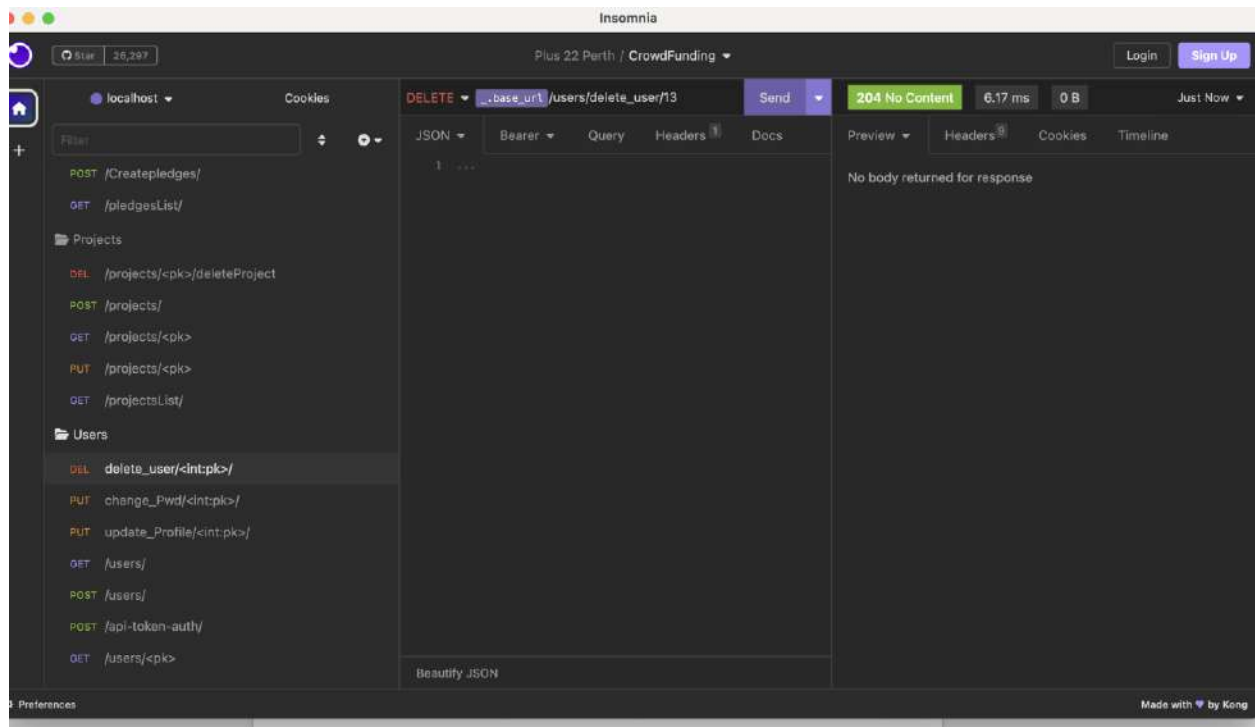

Edit profile

```
curl --request PUT \
  --url http://localhost:8000/users/update_Profile/46/ \
  --header 'Authorization: Token 08d62cb7d30d46fb3c4af0f511a16102dba4f0e3' \
  --header 'Content-Type: application/json' \
  --data '{
        "username": "Insomnia_User1",
     "email": "insomnia1@example.com",
        "first_name": "FInsomniaEdit",
        "last_name": "LInsomniaEdit"
}'
```
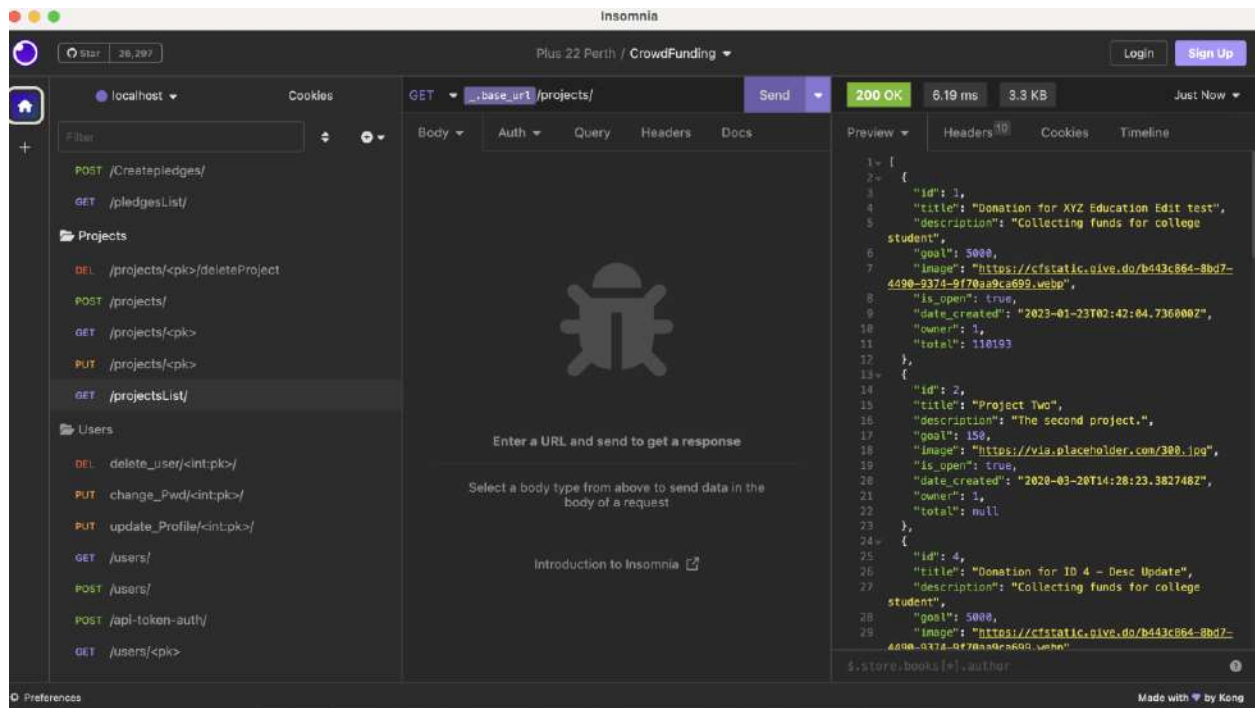

Change Password

```
curl --request PUT \
  --url http://localhost:8000/users/change_Pwd/46/ \
  --header 'Authorization: Token 08d62cb7d30d46fb3c4af0f511a16102dba4f0e3' \
  --header 'Content-Type: application/json' \
  --data '{
        "old_password" :"Testuser_123",
        "new_password": "Testuser_1234"
}'
```
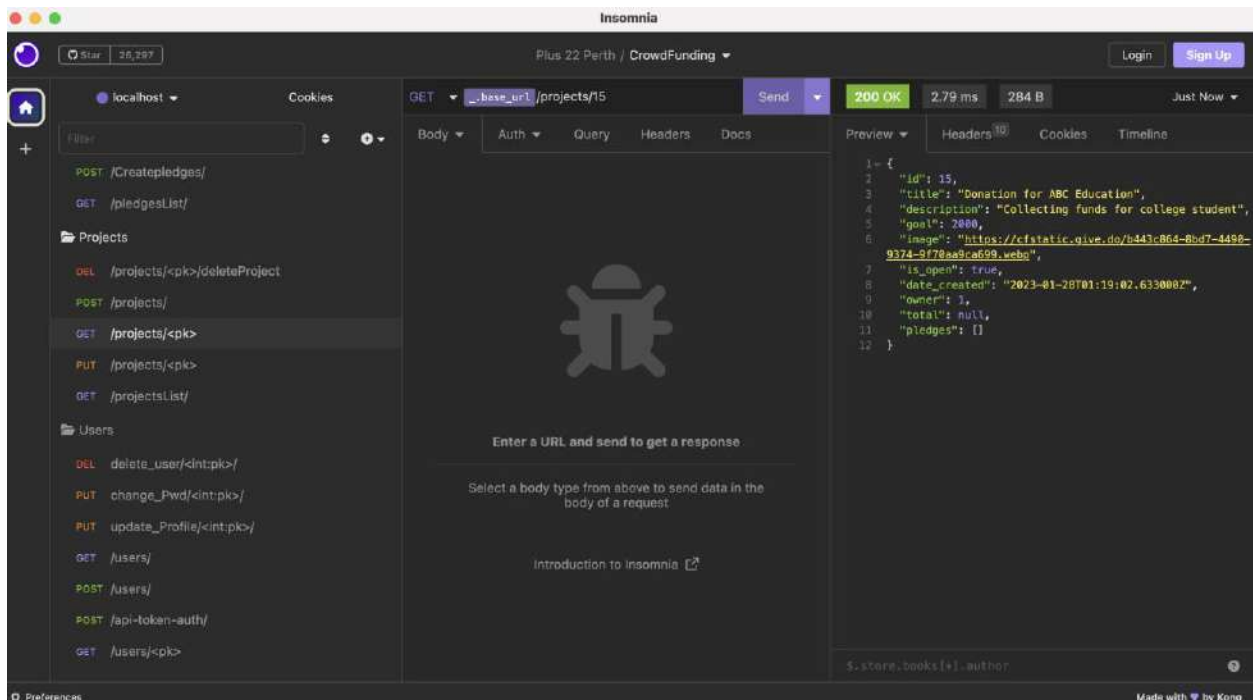

Delete User

curl --request DELETE \
  --url http://localhost:8000/users/delete_user/13 \
  --header 'Authorization: Token 6ab20069897010a2b6e04bb4a3cd27e1a49a9292' \
 --header 'Content-Type: application/json'
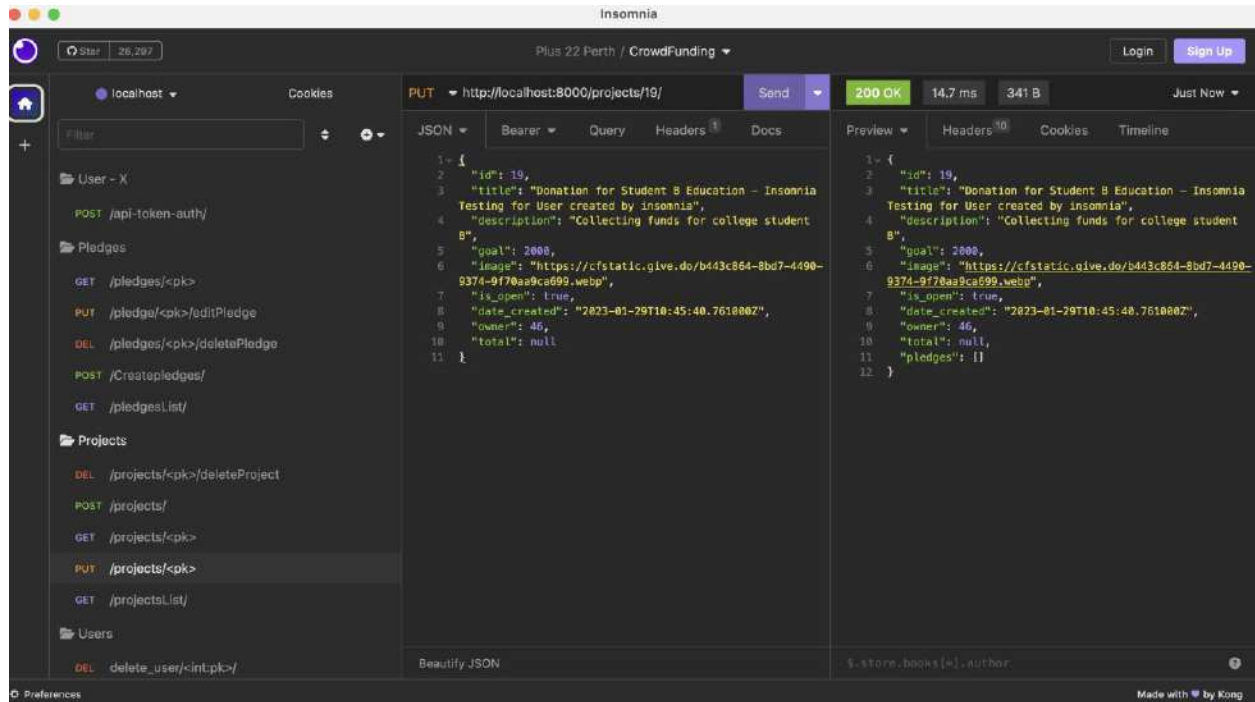

Project List – GET

```
curl --request GET \
  --url http://localhost:8000/projects/
```

Single project GET

curl --request GET \
  --url http://localhost:8000/projects/15

Create Project - POST

```
curl --request POST \
  --url http://localhost:8000/projects/ \
  --header 'Authorization: Token 08d62cb7d30d46fb3c4af0f511a16102dba4f0e3' \
  --header 'Content-Type: application/json' \
  --data '{
        "title": "Donation for Student B Education - Insomnia Testing for USer created by
insomnia",
        "description": "Collecting funds for college student B",
        "goal": 2000,
        "image": "https://cfstatic.give.do/b443c864-8bd7-4490-9374-9f70aa9ca699.webp",
        "is_open": true,
        "date_created": "2023-01-29T10:46:30.333Z"
}'
```

PUT – Edit Single project

```
curl --request PUT \
  --url http://localhost:8000/projects/19/ \
  --header 'Authorization: Token 08d62cb7d30d46fb3c4af0f511a16102dba4f0e3' \
  --header 'Content-Type: application/json' \
  --data '{
        "id": 19,
        "title": "Donation for Student B Education - Insomnia Testing for User created by
insomnia",
        "description": "Collecting funds for college student B",
        "goal": 2000,
        "image": "https://cfstatic.give.do/b443c864-8bd7-4490-9374-9f70aa9ca699.webp",
        "is_open": true,
        "date_created": "2023-01-29T10:45:40.761000Z",
        "owner": 46,
        "total": null
}'
```
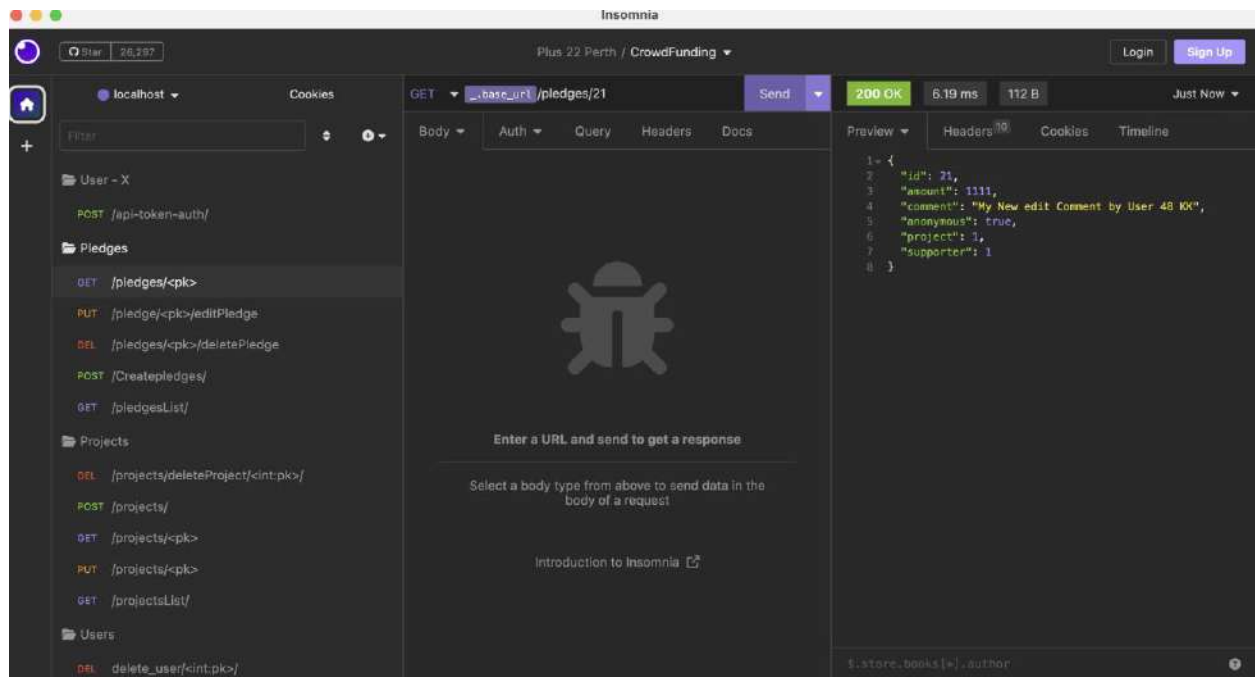

Delete Project

```
curl --request DELETE \
  --url http://localhost:8000/projects/deleteProject/18 \
  --header 'Authorization: Token 6ab20069897010a2b6e04bb4a3cd27e1a49a9292' \
  --header 'Content-Type: application/json'
```
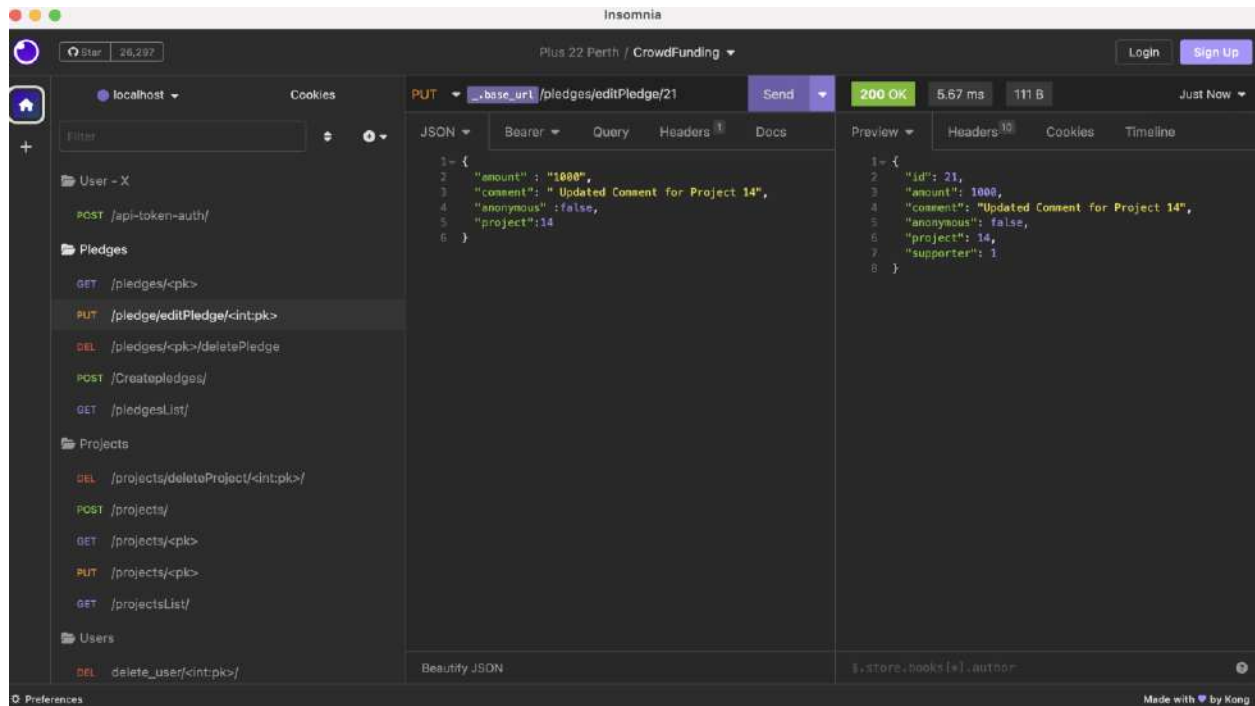

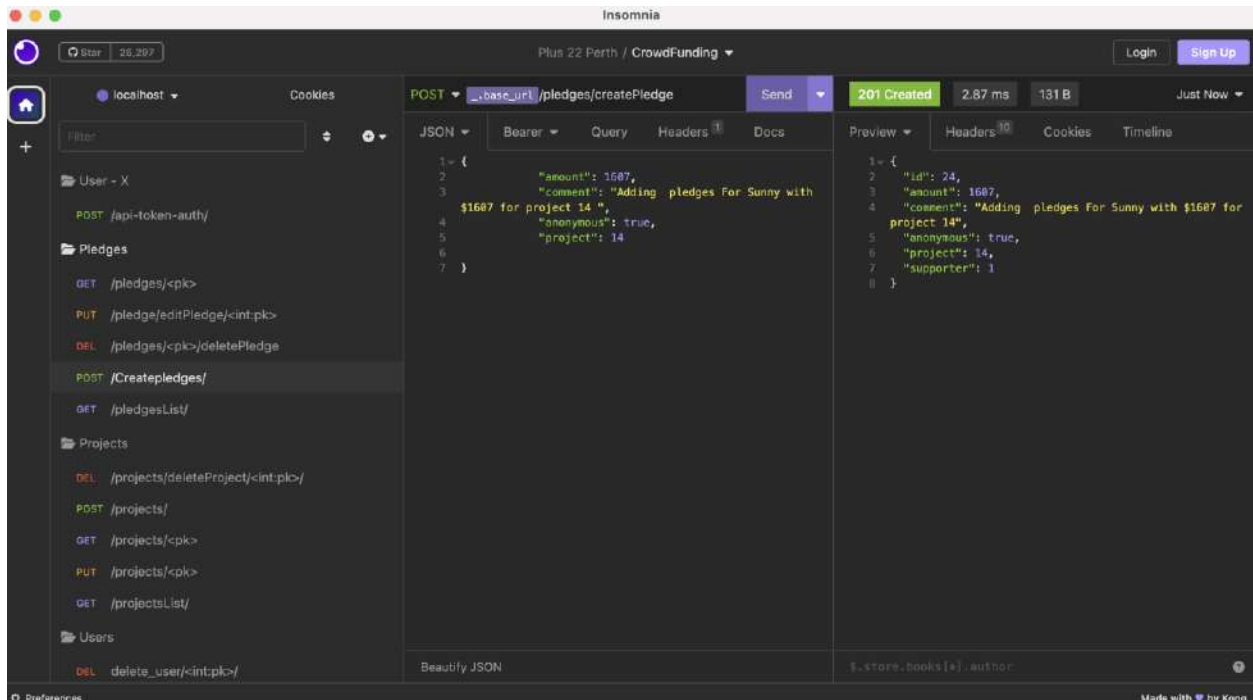

Pledge List - GET

```
curl --request GET \
  --url http://localhost:8000/pledges/
```

Get Single Pledge – GET

curl --request GET \
  --url http://localhost:8000/pledges/21

Edit Pledge – PUT

curl --request PUT \
  --url http://localhost:8000/pledges/editPledge/21 \
  --header 'Authorization: Token 6ab20069897010a2b6e04bb4a3cd27e1a49a9292' \
  --header 'Content-Type: application/json' \
  --data '{
      "amount" : "1000",
      "comment": " Updated Comment for Project 14",
      "anonymous" :false,
      "project":14
}'

Create Pledge – POST

```
curl --request POST \
  --url http://localhost:8000/pledges/createPledge \
  --header 'Authorization: Token 6ab20069897010a2b6e04bb4a3cd27e1a49a9292' \
  --header 'Content-Type: application/json' \
  --data '{
                                    "amount": 1607,
        "comment": "Adding  pledges For Sunny with $1607 for project 14 ",
        "anonymous": true,
        "project": 14

}'
```

Delete Pledge – DEL

```
curl --request DELETE \
  --url http://localhost:8000/pledges/deletePledge/10 \
  --header 'Authorization: Token 6ab20069897010a2b6e04bb4a3cd27e1a49a9292' \
  --header 'Content-Type: application/json'
```
